Suicide Prevention Training For First Responders

Saving Our Own

Designed for first responders, this training builds the skills to recognize when a colleague may be struggling and respond with confidence. Participants will learn and apply the 3-step QPR prevention and intervention model to support one another and connect peers to lifesaving help when it matters most.

LIMITED SEATING. This is a **FREE** training taught by our certified QPR instructor.

- ✓ Increase awareness of stigma and understand suicide as a public health issue
- ✓ Understand common myths and facts surrounding suicidal behavior
- ✓ Recognize and identify common risk factors and warning signs of suicide
- ✓ How to Question, Persuade and Refer someone who may be suicidal
